

CPC40110 Certificate IV in Building and Construction (Building)

verview

Course details

If you are applying for a Queensland Building and Construction Commission (QBCC) Builder – Low Rise, licence, Site Supervisor – Low Rise licence, Builder Restricted to Kitchens, Bathrooms & Laundry licence, Builder Restricted to Shopfitting licence, Builder Restricted to Structural Landscaping licence or Builder Restricted to Special Structures licence, this course is for you!

You should check with your relevant State's licensing authority if they require this qualification for licensing purposes.

Course delivery is via online or Recognition of Prior Learning (RPL).

You will complete the nationally accredited and recognised *qualification CPC40110 Certificate IV in Building and Construction (Building)*.

There are sixteen (16) units of competency required to be completed for the full qualification. This meets the **technical** requirement only for a **QBCC Builder – Low Rise licence** (further requirements need to be satisfied for the licence, check with QBCC for full list of requirements). Only ten (10) units are required to be completed from the qualification for the **Site Supervisor – Low Rise** licence. Check with your relevant State's licensing authority for what they require for licensing purposes.

Please contact us for the required units for the relevant 'Builder Restricted to' licence.

Course structure

In order to complete the whole qualification and gain the CPC40110 Certificate IV in Building and Construction (Building) award, you will need to complete thirteen (13) core units and three (3) elective units.

The required units for the qualification can be found at:

https://training.gov.au/TrainingComponentFiles/CPC08/CPC40110_R7.pdf

We only a select number of elective units on offer that you can choose from. These units are listed in the 'Units' tab on the course web page.

You should check with your relevant State's licensing authority for specific unit requirements in order to meet licensing requirements, eg NSW's Fair Trading may require the elective units CPCCBC4018A and CPCCBC4024A to be completed, etc.

Assessments

Assessments will be in the following form:

- Computer marked: a mix of computer marked questions will be used such as true/false, fill-inthe-blanks, multi-answer, click in order, click the image, etc. The computer will mark your answer immediately. If your answer is correct, you will proceed to the next question. If you get the answer wrong, you can attempt again, however you may get a different variation to the question. Full resources are provided for every question.
- Trainer marked: you will be required to complete assessments and upload for us to assess. These assessments include short answer responses to a question, obtain certain documents online and upload, complete a report, etc.
- Video response: you will be required to use your webcam to create a video where you answer questions. The video is created in our system.

The relevant assessment in each unit will outline any particular requirements to be able to complete the assessment. If you have any questions about an assessment, don't hesitate to contact us.

Structure of course and assessments

The cost of the course will be dependent on whether you qualify for a subsidy, and the number of units you need to do.

For example if you do not qualify for the subsidy and need to do the full qualification, the total, full fee, cost will be \$4,800.

If you qualify for the **subsidy**, the total cost will be **\$880**. If you qualify for the **concessional subsidised** price, the total cost will be **\$640**.

Simply multiply the cost per unit that applies to you by the number of units you need to complete.

The relevant price per unit applies for either online, face-to-face or RPL delivery.

You can start and complete the a unit/s before paying for it. Simply contact us and request us to open a unit/s for you.

You can pay whenever you like, at the start, in the middle or right at the end after you have completed all assessments.

Fees can be paid by direct deposit into our bank account, or by credit card in our online system. Please note, we do not charge any extra fees for payment by credit card.

Full Fee | \$300 per unit

This is the full, nonsubsidised, price of **each unit.**

There are no eligibility or entry restrictions.

Anyone wishing to complete the course, regardless of where you live and citizenship status, etc, can enrol.

Subsidised | \$55 per unit

This is the Qld government's subsidised price for **each unit**.

The Queensland Government provides a subsidy under the Higher Level Skills program.

If you meet the following requirements, you may be eligible for the subsidy:

- Australian or New Zealand citizen or Australian permanent resident
- Permanent Qld resident
- Hold a Certificate III in a building related trade
- Must not hold, or be enrolled in, a Certificate IV or higher qualification.

Please note: If you are eligible for this subsidy and take it up, you will no longer be eligible for further subsidies under the program.

Concession |

\$40 per<u>unit</u>

This is the Qld government's subsidised, concessional, price for each unit.

You are eligible for the concessional fee if you meet all of the requirements for the \$55 subsidised price, **PLUS** one of the following:

- Hold or are listed on an Australian Government Low Income Health Care Card or Pension Concession card
- Are an Aboriginal or Torres Strait Islander
- · Have a disability.

You will need to provide evidence upon enrolment of you meeting one of the above requirements.

If you take this subsidy up, you will no longer be eligible for further subsidies.

ָם הַ

You are able to complete the course entirely online, in your own time. You can enrol in the course on a unit by unit basis when you wish, ie you **do not** have to enrol and pay for the whole course up front.

You can enrol, and complete the course, 24/7, 365 days of the year.

As soon as you complete all tasks for a unit, and we have received your unit fees, you will receive instant access to your Statement of Attainment via an email you will receive and/or through our online system for the relevant unit/s. No waiting 21 or more days for it.

As soon as you have completed all required sixteen (16) units for the qualification, and we have received all fees, you will have instant access to the CPC40110 Certificate IV in Building and Construction (Building) qualification.

Even though you will be working on the course from home, in your own time, you still have access to trainer support.

To access help and support you can do one, or all, of the following:

- You can submit an online contact form from the question you are working on, and we will get back to you ASAP.
- 2. Ring us on 1300 797 123
- Email us as: info@pcdtraining.edu.au
 Start a 'Chat' from our website.

Requirements

You will need the following to complete the course online from home:

- Access to a computer, laptop or tablet that has a webcam.
- Access to the internet.
- An internet browser (we highly recommend to use Google Chrome, FireFox or Safari. We don't recommend Internet Explorer.)

You MAY need access to some text books or other resources, apart from what is listed above, such as the NCC, etc. These will be listed in the relevant unit.

Duration

It is extremely hard to give an indication as to how long it will take you to complete a single unit, as it is competency based, ie if you have some knowledge already in the areas and topics, you may be able to complete the course in half or less time than someone who does not.

We have had students complete within one to two weeks, while others have taken a year or more.

However there is no minimum or maximum time.

Č

Recognition of Prior Learning (RPL) for this course is suited to those who have been a tradesperson, either supervising or building new homes/renovations, for a number of years and have been employed on wages/contract by a licensed builder.

<u>d</u>

In order to apply for RPL for this course, you must complete a skills assessment. This assessment will be evaluated by a trainer and assessor who will meet with you for an interview and will advise on what units of competency you may be able to RPL. They will also advise on a training plan for gap training where you may not RPL a unit/s. You can complete and submit the skills assessment after adding the course to your login.

You can complete the course by RPL and normal enrolment at the same time by being able to 'swap' between both modes when you like.

Why choose PCD?

How to enrol

What makes PCD Training different to other providers? Some of the points below may help answer that question:

- You can enrol 24/7, 365 days a year online.
- You can start and complete your course before paying for it, you can pay right at the end if you want.
- You will receive a copy of your Statement of Attainment for a completed unit as soon as you complete it.
- You receive a copy of your certificate as soon as you complete, and pay for, your course. You do not have to wait 21 or more days like at other providers.
- Access to support outside normal hours of work that other providers work to.

Enrolling is easy and painless and can be done one of three ways:

1. Go to our website:

https://pcdtraining.edu.au/cpc40110-certificate-iv-in-building-and-construction-building and click the relevant button based on whether you are eligible for the subsidy (\$55 per unit) or not (\$300 per unit). If you are eligible for the concessional price (\$40 per unit), please contact us.

- 2. Ring us on 1300 797 123
- 3. Email us your full name, email address, mobile number and you would like to do this course to admin@pcdtrainng.edu.au and we will look after you from there.

Easy as that!
